Hi! I'm a cartographer from Newport News, Virginia. I'm currently looking for a home-based position involving cartography, design, spatial analysis, or data wrangling. I prefer companies that use open source tools and are interested in making the planet better :)

EXPERIENCE

GISi - Senior Geospatial Analyst

September 2012 - Present | Remote

I provide cartographic, design, and UI/UX expertise on multiple projects to include basemap and web service design for local governments and infographic design for federal clients.

BAE Systems - Lead GIS Engineer

March 2010 - September 2012 | Newport News, Va

Working for the US Army as a contractor, I developed gaming products for use in military training. I collected and processed raw sensor data, imagery, and geospatial data to create geo-typical and geo-specific gaming environments. I also assisted with creating 3d models, textures, and graphics that added to the gaming experience.

AECOM - GIS Analyst & Instructor

June 2008 - March 2010 | Langley Air Force Base, Va

City of Hampton - Senior GIS Specialist

May 2002 - June 2008 | Hampton, Va

City of Newport News - GIS Analyst

September 2001 - May 2002 | Newport News, Va
